

The scatter plot displays the frequency of raw scores. The x-axis, labeled 'Raw Score', has major ticks at 2.5, 5.0, and 7.5. The y-axis represents the count of occurrences for each score. The data shows a distribution that is roughly bell-shaped but with a slight right skew, peaking at a raw score of 5.0 with a frequency of 10.

Raw Score	Frequency
0.0	3
0.5	2
1.0	2
1.5	2
2.0	2
2.5	2
3.0	2
3.5	2
4.0	2
4.5	2
