

The dot plot displays the raw scores for 10 items. The x-axis, labeled 'Raw Score', ranges from 0 to 10. The y-axis lists items 1 through 10. Each item's scores are represented by a vertical line of dots. The distribution shows a general upward trend in scores from item 1 to item 10, with item 10 having the highest scores, mostly between 9.0 and 9.5.
